Technical Assessment of Shakambhari Ispat & Power Ltd.

With reference to above, the undersigned and the team visited Shakambhari Ispat & Power Ltd., Madandih, Purulia, West Bengal on 20th February, 2018. A structured evaluation of its capabilities and capacities was conducted and verified based on the documents and witnessing the process and the testing.

It is certified that Shakambhari Ispat & Power Ltd. is a Primary Steel Producer having an Integrated Steel Plant. The manufacturing process is DRI-EIF-CCM-RM, with natural minerals, i.e. Iron Ore, Coal and Dolomite as Raw Materials. CCM is connected to Rolling Mill for Direct Hot Rolling through an in-line Induction Heater and Continuous Rolling Stands with Twister Guides. HYQST system with TEMPCORE technology is equipped for TMT making. The plant maintains proper manufacturing quality assurance plan and well equipped laboratory with modern testing facilities that include Spectrometer and Computerized Universal Testing Machine (all lab equipments are duly calibrated with NABL Lab). Plant capacity has been assessed as 300,000 Tons per annum.

The organisation is accredited as ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2008. The products i.e. Billets and TMT Bars are licensed with Bureau of Indian Standards (BIS).
